CERTIFICATION

This document certifies that the above-referenced wallet address contains the stated balance of digital assets as verified on the Ethereum blockchain. The balance is mathematically verifiable by any party at any time using the provided verification links. Unlike traditional proof of funds which rely on institutional attestation, blockchain verification provides cryptographic certainty that cannot be forged, altered, or disputed.

VERIFICATION ADVANTAGES

- Real-time verification available 24/7/365
- No third-party attestation required
- Mathematically immutable record
- Complete transaction history available

- Cryptographic proof of ownership
